“We have taken your wedding memories to another level”

Our Wedding Gift To You -

We will take photos of all your friends and family and show them live on a 42” TV at your reception. We will also give you the complete photo file in a “Memory Movie” with music.

This is a one of a kind photo service that we will create for you, your family & friends.

Enhanced Crowd Interaction:

One of the key benefits of having a pair of DJ entertainers is the ability to engage and interact with the crowd more effectively. While one DJ focuses on mixing and transitioning the music, the other can actively engage with the guests, encouraging them to get on the dance floor, leading line dances, or organizing interactive photos for our custom Live Stream Wedding Gallery & Memory Movie.

This dynamic duo approach creates an inclusive and vibrant atmosphere, encouraging even the most timid guests to participate and make lasting memories.
